## **“The Role of Education in Urban Regeneration”**

### CONCLUSIONS

IUSDT calls upon international organisations to pressurise governments all over the world to implement measures that will prevent youngsters below the age of majority taking part in military activities, warfare and civil war activities and being exploited in work and in prostitution.

IUSDT will work out a program for Education and Employment.

Proposals and recommendations on the themes:

- To improve the work between the family and the school
- The inclusion of ethnic minorities
- Access of all to knowledge and information
- Education cannot resolve all the problems which are at the forefront of political, social and economic order
- Education, work and lifelong learning
- Education from the social democrat aspect
- Principles for the development of the education system
